TUESDAY, 17.05.2022, FROM 18.00 TILL 20.15  
NOVINARSKI DOM, PERKOVČEVA 2, ZAGREB

→ Multiple crises affect our lives in these extraordinary times: The climate crisis unfolds in front of our eyes, and the war in Ukraine shows, once more, the need to break free from fossil fuels. Energy security and energy independence are now top priorities on the political agenda.

After the movie screening, we want to discuss the new climate security risks in Europe, ways to secure energy supply and Croatia's position on these topics. We are looking forward to a lively, and perhaps controversial, debate with experts – and with you!
